AirNet Achieving 99.2% and Above On-Time Performance

COLUMBUS, Ohio – September 16, 2009 – Many leading companies in a diverse set of industries are achieving superior results from utilizing AirNet’s time-critical transportation services. AirNet reports an average of 99.2% or better on-time performance. This level of service is simply unmatched in the industry and is often responsible in helping AirNet’s customers exceed their business objectives and attract and retain top customers in their industry segments.

AirNet owns and operates over 170 of its own aircraft based in 40 cities throughout the US, providing service to over 2,550 markets nightly. In addition to its own fleet, AirNet partners with over 1,000 logistics companies, forwarders, and commercial airlines to provide a complete suite of mission-critical transportation options to its customers.

AirNet’s Customer Resource Center is staffed by experienced Customer Service Representatives 24/7/365. The company also provides an advanced transportation management system that allows its customers to ship online, track and trace shipments, and provides real time, up-to-the-minute information regarding air and ground shipments.

“We’re very proud of the value that we provide our customers,” stated George Gonzalez, President and CEO of AirNet, “Today’s increasingly competitive business environment demands that companies provide best-in-class customer service, performance, and results to their customers. It’s extremely rewarding to me to hear that the service we provide contributes to our customers’ success.”

About AirNet:

AirNet Systems, Inc. focuses its resources on providing value-added, time-critical aviation services to a diverse set of customers in the most service-intensive, cost-

effective manner possible. AirNet operates an integrated national transportation network providing expedited transportation services to banks and time-critical small package shippers nationwide. AirNet's aircraft are located strategically throughout the United States. To find out more, visit www.airnet.com.
